

Here is a clear and professional summary of the document:

Monisha is an aspiring software engineer with a strong foundation in artificial intelligence and data science. She holds a Bachelor of Technology degree in Artificial Intelligence and Data Science from Panimalar Engineering College. Monisha has acquired various skills in programming languages such as Java, Python, and SQL, as well as expertise in tools and databases like VS Code, Git, GitHub, and Jupyter Notebook.

She has completed several certifications, including Programming in Python for Data Science (NPTEL), Oracle OCI AI Foundations Associate, and Oracle Generative AI. Monisha has also developed proficiency in frontend technologies like HTML, CSS, JavaScript, Bootstrap, and React.js. Her soft skills include self-motivation, problem-solving, and adaptability.

Monisha has worked on various personal projects, including a cloud-based Car Rental System that integrates Java, MySQL, and AWS services. She has also completed internships in Full Stack Development (Java), Data Analytics, and AWS Cloud Engineering, where she gained hands-on experience in data collection, analysis, and visualization, as well as cloud computing concepts and AWS services.

Her career objective is to secure an entry-level opportunity in AI and software development, where she can apply her technical skills, learn from industry professionals, and contribute to innovative projects. Monisha is enthusiastic about artificial intelligence, machine learning, and continuous learning, and is eager to build a successful career in the field. She can be contacted at mmonishas30405@gmail.com or through her LinkedIn profile.
