CAREER OBJECTIVE

Enthusiastic Artificial Intelligence and Data Science student with knowledge of Python, Java, FastAPI, and web technologies. Seeking an entry-level opportunity to apply my technical skills, learn from industry professionals, and contribute to innovative projects while building a successful career in AI and software development.

EDUCATION

Bachelor of Technology (B.Tech)- Artificial Intelligence and Data Science <i>Panimalar Engineering College</i>	2024 – 2028 Chennai, India
Class XII-HSC , <i>Sunbeam Matric Higher Secondary School</i> • Percentage: 72%	2023 – 2024 Vellore, India
Class X-SSLC , <i>Sunbeam Matric Higher Secondary School</i>	2021-2022 vellore,India

SKILLS

Programming Languages

Java, Python,SQL

Tools & Databases

VS Code, Git, GitHub, Jupyter Notebook

Soft Skills

Self-Motivated, Problem Solving, Adaptability

Frontend Technologies:

HTML, CSS, JavaScript, Bootstrap, React.js

Frameworks & Libraries

FastAPI, Bootstrap, NumPy, Pandas, MatplotlibCore Concepts, OOP, Data Structures

Interests:

Artificial Intelligence
Machine Learning
Continuous Learning

ACHIEVEMENTS

- Built web applications using HTML, CSS, JavaScript
- Developed academic mini-projects in Artificial Intelligence and Data Science.

PROJECTS

Personal Project

Developed a cloud-based Car Rental System integrating Java, MySQL, and AWS services. Designed modules for vehicle booking, customer management, and rental tracking while utilizing cloud deployment concepts. Enhanced skills in cloud computing, database management, and full-stack application development.

CERTIFICATIONS

- 1.Programming in Python for Data Science (NPTEL)
2. Oracle OCI AI Foundations Associate
3. Oracle Generative AI
4. udemy Database Management System
5. Generative AI for All (Infosys)
- 6.Oracle SQL (GUVI-HCL)

INTERNSHIP

- **Data Analytics(TANSAM)**

Completed a Data Analytics internship with hands-on experience in data collection, cleaning, and exploratory data analysis. Worked with datasets to identify trends, generate insights, and create visual reports using analytical tools. Strengthened skills in data interpretation, visualization, and data-driven decision-making.

- **AWS Cloud Engineering intern**

Completed an AWS Cloud Engineering internship focused on cloud computing concepts and AWS services. Gained practical experience with Amazon EC2, Amazon S3, IAM, and cloud deployment while understanding security and scalability. Developed foundational knowledge of cloud infrastructure and resource management.

- **Full Stack Development (JAVA) Intern**

Full Stack Development internship with practical exposure to front-end and back-end web development using Java technologies. Developed responsive web applications, integrated databases, and implemented CRUD operations using MySQL. Enhanced skills in Java, HTML, CSS, JavaScript, and database connectivity
